FGCCFL Student Congress Master Ballot

DIRECTIONS: At the end of the session, **select and rank** (from 1 to 8, where 1 is best) the students who, in your opinion, contributed the most to the session. Although speaking and presiding should weigh most heavily in your decisions, we are looking for your overall impression of the students' performance and contributions. Please do NOT simply rank the students who scored the most points!

The Presiding Officer (PO) is eligible to be ranked and MUST be considered. The PO gave up the opportunity to speak in order to lead the session, and her/his effective leadership is a contribution to the session that is at least as significant as effective speaking.

We are all influenced by implicit bias, or the stereotypes that unconsciously affect our decisions. When judging, our implicit biases negatively impact students who are traditionally marginalized and disenfranchised. Before making your rankings, please take a moment to reflect on any biases that may impact your decision-making process.
